27 February 1981

MEMORANDUM FOR: Deputy Director of Security, CA

STAT FROM:

Deputy Director of Security, P&M

SUBJECT: Realignment of SSC and CIB

I have the following observations concerning your memorandum of 23 February 1981 on the realignment of the Special Security Center and the Compartmented Information Branch.

- The organizational changes seem to make sense, and I should think these are your prerogatives as a manager. It would take little more than the blessing of the Director of Security.
- organizational structure should not be based on temporary problems, with which you are loaded. In a sense 1980 has been a total observation in terms of APEX, 4-C, the survival exercise, and illness.
- I support you completely on Career Board relief for the survival exercise, and would submit that this should be quickly addressed at our next meeting, with a strong push from the Chairman. (There is too much of an imbalance on the overage in the office.)
- o I think is a real comer, and feel he should be groomed for increased responsibilities in all areas of SCI.
- Ouite frankly, I think the DD/CA is entirely too "thin" from a personnel standpoint, and the Special Security Center has survived on "borrowed help" entirely too long. Use the memorandum of 25 February 1981 re Perspectives on Increased Efficiency as a base in justifying an infusion of a few more slots. The deadline is 4 March.
